LIFE STEWARDSHIP PROJECT, ALLIANCES AND INNOVATION

OBJECTIVE: To promote land stewardship as a tool for nature conservation through innovation and collaboration between public administrations, landowners, companies, NGOs, and other entities

Implementation period

October 2024 –
September 2028

Location
Spain +
International
Projection

Budget
€1.74M

TO ACHIEVE ITS OBJECTIVE, **THE PROJECT IS BASED ON THREE PILLARS**

Innovation

focusing on financial and social mechanisms and the development of public policies

Mobilization of funding

attracting European and national private and public funds to scale up project results

Internationalisation

maximising the flow of innovation and transferability in land stewardship

In addition, the design and implementation of a capacity building plan, the creation of an office offering advisory services for the implementation of land stewardship projects, and the dissemination of policies at EU level will reinforce these basic pillars.

ACTIONS

Innovation programme → Identification and analysis of new opportunities and mobilisation of funding. Innovation lighthouses

Standardisation of the key processes involved in the agreements and improvement of the evaluation of their effectiveness

To boost **collaboration involving public and private entities, as well as civil society**, with proposals for improving public policies and collaboration with the business sector

Creation of a **technical advisory office** and a **Resource centre of Land Stewardship**

Plan to strengthen the **capacities** and resources of the land stewardship community

Communication and dissemination of the project
